PROGRAMA

CIRURGIA VASCULAR

Sexta-Feira, **28 Novembro**

15:00 Free Communications

Moderator: **Ana Marreiros**

- Polyvascular Disease in Aortoiliac Atherosclerosis: A Marker of Systemic Cardiovascular Risk – Cohort Study
  João Quesado
- Fatores preditores de mortalidade em doentes submetidos a amputações major do Membro Inferior
  Ana Luísa Salvador Reis
- The Impact of Carotid Endarterectomy on Ocular Electrophysiology and Visual Function: A Systematic Review
  Maria Antónia Melo
- Management and Outcomes of Upper Extremity Vascular Trauma: Insights from a Decade-Long Retrospective Study
  Ana Margarida Rocha
- What is tissue proteomics telling us about Abdominal Aortic Aneurysm? A Systematic Review
  Telmo Baltazar
- Reinfection Incidence Following Surgical Intervention for Infected Aortobifemoral Bypass: A Meta-Analysis
  Márcio Brazuna
- IL-6 and Surgical Outcomes in Carotid Endarterectomy: A Systematic Review and Meta-Analysis
  Maria Antónia da Rocha Melo de Sousa
- Psoas Muscle Area as a Prognostic Marker in Aortic Revascularization for Aortoiliac Occlusive Disease: A Systematic Review and Meta-Analysis
  João Fernandes Carvalho
- How does calcification severity impact endovascular treatment outcomes on femoro popliteal lesions?
  Gonçalo Araújo
- Different Scenarios, Same Solution: The Sandwich Technique for Complex Iliac Disease
  Patrícia Carvalho
- Renal Artery Stenting for Renal Malperfusion Syndrome Following FET Repair for Acute Aortic Dissection
  Gonçalo Araújo

17:00 Short Communications

Moderator: **Luís Gamas**

- Use of External Polytetrafluoroethylene Reinforcement of Varicose Great Saphenous Vein in Distal Bypass Surgery
  João Marcelo Cabral
- Unexpected Diagnosis of Concomitant Castleman's Disease Following Carotid Body Tumour Resection: A Case Report and Management Review
  Roberto Cunha
- Breaking the Nutcracker: A Case-Based Review of Diagnosis and Surgical Treatment
  Roberto Cunha
- From Surgery to Rehabilitation: Long-Term Outcomes After Major Lower-Limb Amputation
  João Marcelo Cabral
- Endovascular Approach for Acute-on-Chronic Mesenteric Ischemia: The Holy Grail for Old and Frail Patients
  Roberto Cunha
- Combined treatment options for target visceral aorta in complex thoraco-abdominal aneurysm endovascular repair
  Helena Fidalgo
- Response evaluation of Electrochemotherapy in a locally advanced angiosarcoma – a case report
  Catarina Palma
- Managing perirectal arteriovenous malformation with embolization: a case study
  João Marcelo Cabral

PROGRAMA

CIRURGIA VASCULAR

- Successful Renal Function Restoration by Renal Artery Stenting in Anuric Acute Kidney Injury with Severe Aorto-Renal Atherosclerosis: A Case Report
  Francisco Basílio
- Long-Term Predictor of Cardiovascular Outcomes in Patients Undergoing Carotid Endarterectomy
  Joana Barrias Pinto
- Occult Vascular Injury after High-Energy Trauma: A Case of Celiac Trunk Pseudoaneurysm
  Margarida Salvado

Sábado, **29 Novembro**

09:00 **Peripheral Vascular Disease**

Moderators: **João Peixoto, Leonor Vasconcelos**

- Orbital Atherectomy in Peripheral Artery Disease: Real-World Results
  Speaker: **José Pedro Pinto** | Discussant: **João Castro**
- Below-the-Knee and Below-the-Ankle: Evidence, Technique, and Clinical Judgment
  Speaker: **Ricardo Correia** | Discussant: **João Pedro Rato**
- Carotid Aneurysms: When to Treat and How to Choose the Best Strategy
  Speaker: **Piotr Myrcha** | Discussant: **Tiago Ribeiro**

10:00 Coffee Break

10:30 **Aorta**

Moderators: **Pedro Almeida, Augusto Ministro, Gabriel Anacleto, Nilo Mosquera Arochena**

- The added value of Translational Proteomics in AAA: What's New, What's Next?
  Speaker: **Fábio Trindade** | Discussant: **Filipe Pinheiro**
- Collateral Control: The Role of Branch Embolization in Optimizing EVAR Outcomes
  Speaker: **Mário Vieira**
- Acute Management of Type B Aortic Dissection
  Speaker: **Alice Lopes**
- From Planning to Deployment: Practical Strategies for Chronic Aortic Dissection
  Speaker: **Gonçalo Alves**

12:00 **Sponsored Symposium: Shockwave IVL - Innovation & Consistency in Calcium Treatment**

Moderator: **Pedro Amorim**

- An optimised calcium solution from the Iliacs to below the ankle
  Pedro Amorim
- Why IVL represents my first-line strategy for Iliac calcification
  Nilo Mosquera Arochena
- Reliable tools for tackling calcified CLTI
  Elisa Piccolo

12:30 Lunch

14:00 **Oral Communications selected for the Award 'João Cid dos Santos**

Moderator: **Miguel Lemos Gomes**

Jury: **José Vidoedo, José Teixeira, Manuel Fonseca, Orlanda Castel'Branco**

- Predictive Factors for Prosthetic Fitting in Patients Undergoing Major Lower Limb Amputation
  Luís Miguel Ferreira
- Effects of Intraoperative Dexmedetomidine on Perioperative Outcomes in Carotid Endarterectomy: A Systematic Review
  João David Carvalho Martins
- Efficacy and safety of sirolimus in vascular malformations
  Paulo Miguel Gomes de Sousa Ferraz dos Santos

SPCCTV CONGRESS 2025

***Smart** surgery, improved care*

SPCCTV 4D VISIONS

PROGRAMA

CIRURGIA VASCULAR

- Emergent Hybrid Revascularization in Suprarenal Coral Reef Aorta
  Miguel Queirós
- Feasibility and Impact of Cardiac Rehabilitation in Intermittent Claudication: a Retrospective Study
  Ana Margarida Rocha
- Compensatory Hyperhidrosis after Thoracoscopic Sympathectomy - Can we predict its occurrence?
  Beatriz Guimarães
- Evaluating the Influence of Extracranial Carotid Aneurysm Type on Treatment Outcomes
  Joana Monteiro-Pacheco
- Defying the Clock: Restoring Renal Function After 72 Hours of Subacute Renal Thrombosis
  Roberto Cunha
- Knowledge, Use, and Barriers in Dyslipidemia Management – A Cross-Sectional Survey of Clinicians
  António José Mesquita Lousada
- Uncovering Tissue Proteomic Signatures for Prediction of Major Adverse Cardiovascular Events in Abdominal Aortic Aneurysm
  Telmo Baltazar

16:00 Coffee Break

16:30 **Venous disease**

Moderators: **Gonçalo Cabral, António Assunção, Pedro Amorim, Elisa Piccolo**

- Lipedema: A Clinical Entity Often Misdiagnosed as Obesity or Lymphedema
  Speaker: **Pedro Pinto Sousa**
- Total endovenous laser ablation
  Speaker: **Luca Palombi** (remote) | Discussant: **Sofia Ferreira**
- Treating Varicose Veins in High-Risk Surgical Candidates
  Speaker: **Henrique Rocha** | Discussant: **Mariana Moutinho**
- Heat ablation and Foam vs Heat ablation and phlebectomies: Techniques, and Clinical Applications
  Speaker: **Christian Baraldi** (remote) | Discussant: **Francisco Basílio**

18:30 **Assembleia Geral**

Domingo, **30 Novembro**

10:30 **Sessão plenária**

1. Inteligência artificial: imagem e cirurgia, um desafio no presente
   Palestrante: **João Santinha**
2. Dados imperfeitos e registos em cirurgia: utilidades e desafios no uso da inteligência artificial
   Palestrante: **Rafael Pereira**
3. Patient- based value care in AI era
   Palestrante: **Filipe Costa**

12:00 **Sessão de encerramento**

SPCCTV CONGRESS 2025
