PROGRAMA

CIRURGIA TORÁCICA

Sexta-Feira, **28 Novembro**

10:15 **Sessão de abertura**
Cristina Rodrigues

10:30 **Comunicações curtas**
Moderadores: **Mariana Antunes e Ana Rita Costa**

- Minimally invasive pulmonary metastasectomy in the pediatric population: Results of an interinstitutional protocol
  Jorge Cagigal
- Hyperthermic intrathoracic chemotherapy for thymic epithelial tumors – Protocol and case report
  Ana Margarida Silva
- Pancoast Tumors: Surgical outcomes and experience in our Thoracic Surgery Department
  José Maria Ratinho
- Outcomes of Lobectomies with Bronchoplasty: an 8-Year Single-Center Experience
  Zenito Cruz
- Traumatic complete right main bronchus laceration: A Case Report
  José Maria Ratinho
- Surgical Outcomes of Posterior Mediastinal Tumors: A 11-Year Retrospective Analysis
  Zenito Cruz
- Performance and Diagnostic Accuracy of Cervical Mediastinoscopy for Mediastinal Staging: A Five-Year Retrospective Study
  Ana Siopa Inácio
- A complex preoperative assessment for a giant lung mass
  Marion Gaspar
- Solitary fibrous tumour: clinical presentation, histopathology, surgical treatment and follow-up in a tertiary centre
  Gonçalo Morais
- A Challenging Case - Complicated Invasive Pulmonary Aspergillosis with Bronchopleural Fistula Repair
  Zenito Cruz
- Posterior Mediastinal Mass Complicated by Chylothorax: A Case of Indolent B-cell Lymphoma
  André Bento

11:30 **Trauma torácico**
Moderadores: **Rita Lopes e Paulo Calvinho**

- Abordagem inicial ao trauma torácico
  Miguel Fernandes
- Lesão da via aérea
  Kostas Papagiannopoulos (remoto)
- O papel do ECMO no trauma torácico
  Philip Fortuna

13:00 Almoço

14:00 **Sponsored symposium: BMS | New options and therapeutic opportunities for patients with resectable NSCLC. Experts talk out**
Moderator: **Cristina Rodrigues**
Speakers: **José Luis Campo-Cañaveral and Ana Figueiredo**

15:00 **Rastreio de cancro do pulmão**
Moderadores: **Rui Medeiros e Cristina Rodrigues**

- Como montar um rastreio
  Fernando Tavares
- Rastreio cancro do pulmão
  Venceslau Hespanhol
- Perspetiva Europeia e lições de outros países
  Gilbert Massard

16:30 Coffee break

17:00 **Melhores comunicações orais**
Moderadores: **Catarina Carvalheiro, Cristina Rodrigues e Pedro Fernandes**

- Diagnostic performance of VAMLA in mediastinal lymph node staging: single-center early results
  Ana Margarida Silva
- Ambulatory video-assisted thoracoscopic lung biopsy in patients with interstitial lung disease
  André Carrão

SPCCTV CONGRESS 2025
***Smart** surgery, improved care*

SPCCTV 4D VISIONS

PROGRAMA

CIRURGIA TORÁCICA

- Anatomical segmentectomies (2020–2025): real world caseload, perioperative outcomes and early oncologic results from a single thoracic unit
  António Almeida Lima
- Insights into neoadjuvant treatment with immunotherapy – A 5-Year Experience
  Marion Gaspar
- Thoracic Ambulatory Surgery: pilot project at our center
  Mariana Antunes

Sábado, **29 Novembro**

08:30 **Video sessions**

Moderadores: **Daniel Cabral e Ana Luís Garcia**

- Overcoming Challenges in Robotic Lobectomy After Chemoimmunotherapy
  Soraia Capela Gonçalves
- Robot-Assisted Pure Bronchoplastic Resection for Endobronchial Carcinoid: A Video Case Presentation
  Zenito Cruz
- Uniportal VATS Left Lower Sleeve Lobectomy with Upper Lobe Bronchial Reimplantation for Typical Carcinoid Tumor: A Case Report
  António Almeida Lima
- Uniportal VATS Resection of a Pediatric Bronchogenic Cyst: Video Case Report
  Catarina Sousa-Lopes
- Minimally Invasive Right Lower Lobectomy with Bronchoplasty for Central Squamous Cell Carcinoma: A Video Case Report
  Zenito Cruz
- VATS excision of an ectopic mediastinal parathyroid adenoma: A Case Report
  Ana Sofia Lopes
- VATS Lobectomy After Neoadjuvant Chemoimmunotherapy: A Case Report
  Ana Siopa Inácio

09:30 **Grupo cirurgia minimamente invasiva/robótica**

Moderadores: **Fernando Martelo e Daniel Cabral**

- RATS for all the procedures: is it feasible if so, should we do it?
  Alessandro Mariani
- Disasters in VATS and RATS
  Herbert Decaluwe
- Formação em VATS e RATS
  João Eurico Reis

11:00 Coffee break

11:30 **Grupo Formação, Educação e Investigação**

Moderadores: **José Miranda e Filipe Leite**

- Perspetiva Europeia e Standardização
  Gilbert Massard
- Perspetivas futuras para o ensino médico e cirúrgico
  James Lee (remoto)
- O cirurgião investigador
  Alessandro Brunelli

13:00 Almoço

14:00 **Sponsored Symposium: MSD - Tailoring IO in resectable NSCLC: Personalized approaches for improved outcomes**

- Opening
  Alessandro Mariani
- Evolving frontiers in rNSCLC: Thoracic Surgery perspective
  Alessandro Mariani
- Practical aspects of Anatomopathology in the treatment of the patients with lung cancer
  Nuno Coimbra
- Discussion & Take-home messages
  Alessandro Mariani, Nuno Coimbra

SPCCTV CONGRESS 2025

***Smart** surgery, improved care*

4D VISIONS

PROGRAMA

CIRURGIA TORÁCICA

15:00 **Inteligência artificial e a sua aplicação na oncologia torácica**

Moderadores: **Gonçalo Paupério e Ivan Bravio**

- IA na seleção de doentes e planeamento cirúrgico
  Teresa Moreira
- IA, cirurgia robótica e machine learning – presente e futuro
  João Eurico Reis
- IA na monitorização pós-operatória para a deteção precoce de recidivas
  João Alpendre

16:45 Coffee break

17:15 **Aula Dr. João Bernardo**

18:30 **Assembleia geral**

Domingo, **30 Novembro**

10:30 **Sessão plenária**

1. Inteligência artificial: imagem e cirurgia, um desafio no presente
   Palestrante: **João Santinha**
2. Dados imperfeitos e registos em cirurgia: utilidades e desafios no uso da inteligência artificial
   Palestrante: **Rafael Pereira**
3. Patient- based value care in AI era
   Palestrante: **Filipe Costa**

12:00 **Sessão de encerramento**

SPCCTV CONGRESS 2025
